

Double-Duty for Twice the Protection

Facet's Go-No-Go (GNG) absorptive cartridges perform two jobs with one cartridge. It absorbs water and removes solids reliably and efficiently. As the product stream flows from the outside of the cartridge to the inside, the GNG special water absorbent medium retains water, and the pleats expand. As the maximum water holding capacity is reached, there is a reduction in flow. The cartridge slows, then stops the flow of product as it reaches maximum capacity. This indicates that the cartridge is ready to be changed, assuring you of clean, dry product.

Benefits

- Absorbs highly emulsified water to less than 5 ppm
- Provides positive shut-off —increased differential pressure signals cartridge change-out

Go-No-Go® Absorptive Cartridges GNG Series

- Holds larger amounts of water than competition
- Ultra fine particulate removal efficiencies
- High collapse rating of cartridges
- · Quick, easy cartridge change-out
- Easy housing installation

Standard Design Features

- Recommended max. operating temperature: 180 °F (82 °C)
- Maximum differential pressure: 100 psi (6.9 bar)
- Flow direction: Outside to in
- · Layered multi-media pleated sections

Materials

- All metal components treated to protect against corrosion
- · Special water absorbing medium
- Metal support shells
- Standard gasket material is Buna-N—other materials available upon request

Applications

- Fuel dispensing pumps
- Off-road machinery
- · Service stations
- Marinas
- Truck stops
- Bus fueling
- Diesel fuel
- Gasoline
- Kerosene
- Other engine fuels
- Various oils

MATERIALS

Filter media options:

5, 25 µm: Water Absorptive Media

Gasket Materials: Standard: Buna-N

Optional: Other materials available upon request

Components:

Center Core: Offered in Tin Plated, Powder Coated

End Caps: Carbon Steel

Adhesives: Urethane, Two Part Epoxy, Plastisol
